

Spoon-in-Lid Solutions

– When packaging is so much more.

Why use the SKY-LIGHT spoon-in-lid?

- It makes it easier for your customers to enjoy ON-THE-GO-products.
- It makes your products more attractive for sale through e.g. convenience stores, cafés, petrol stations and super markets.
- We produce lids in colours specifically for your requirements.
- We deliver the same high quality every time.
- We deliver a spoon-in-lid solution produced in the Nordic countries using reliable and food approved materials.

**The possibilities are many
– the spoon-in-lid solution is
used for many convenience
and on-the-go products:**

- Dairy products such as yoghurt and skyr
- Protein pudding
- Baby food such as compote and mash
- Icecream in pots
- Rice desserts
- Fruit salads and fruit in pots
